CAUTION

See back panel for additional precautions

NET WEIGHT: 473 ml (16 FL. OZ.)

ALOEDINE[®]

Iodine Medicated Shampoo

With Aloe Vera Added

FOR HORSES, PONIES AND DOGS

Horses have a variety of skin problems, most of which are extremely difficult to diagnose even for veterinarians. We recommend use of a deep cleaning medicated shampoo on a regular basis to help prevent skin conditions that can develop in horses, particularly in the summer. Skin problems in horses are extremely difficult to treat once started, but the regular use of Aloedine will aid in preventing many of these problems. Aloedine develops a rich lather which penetrates deeply and cleanses contaminated areas.

Aloedine contains Aloe Vera gel to moisturize and enrich skin and hair. Aloe Vera has been used for hundreds of years as a natural aid to healthy hair.

This product is also excellent for use on adult dogs, but not for use on puppies, cats or kittens.

DIRECTIONS:

Wet animal with warm water. Apply one to two ounces of Aloedine to the entire body. Work into a rich lather and rinse. If irritation occurs, discontinue use and consult a veterinarian.

CAUTION:

Animals: For external use only. Not for use on puppies, cats or kittens. Care should be taken to keep shampoo out of the animal's eyes.

Humans: Keep out of reach of children. For animal use only. May be harmful if swallowed. Store out of direct sunlight.
