

## *The Horseware® Disc Closure System*

The Horseware® Disc Closure System takes our V-Front closure to the next level, moving the goalposts in blanket front closure design.

It is light, safe and easy to use. It incorporates our four V-Front closure points in a lighter, more flexible design. The non-corrosive and streamlined design of the Horseware® Disc Closure System can be produced in a wide array of colors, and it can be closed with one hand, simplifying the chore of changing blankets.

The Horseware® V-Front closure is a more comfortable option for horses, and the cutting edge design of the Horseware® Disc further enhances the effectiveness of this innovative blanket closure system.

*Look out for our new Disc  
Front Closure on packaging*

Now available in the Amigo® Bravo 12 Plus Turnout, 0g & 250g, Amigo® Hero 6 0g, the Rambo® Helix Stable sheet & the Rambo® Airmax.

Lightweight and flexible design avoids the anchoring effect of flysheets or lightweight blankets.

Ergonomic design. Contoured curves compliment the horse's shape and allows the neck to lower comfortably for grazing.

Classic V-Front design mimics the horse's shoulder movement. Plate is positioned comfortably on the horse's chest.

Tested in extreme climates of -13°F to 104°F. UV protected and designed to last.

Ease of use quick release system. Two straps and the blanket releases

Non-corrosive material with maximum strength.

You can name or mark individual blankets.

Super strong polypropylene blends designed to withstand the weight of a horse.
