Enhance detangling crème conditioner

ALL
NATURAL
FORMULA

- Pro Series crème conditioner for maximum absorption and easy spray-on application with no run-off
- Detangles as it conditions deeply to repair and protect the hair shaft
- Contains Aloe Vera, a natural humectant, to gently balance without leaving a build up or causing skin irritation
- Protein fills chips and splits in hair, and tames split ends and “frizzies”
- Makes hair shiny, manageable and full of body for a free flowing mane and tail
- May be used as a finishing rinse or as a leave-in moisturizing and detangling conditioner

DIRECTIONS: To use as a leave-in deep penetrating conditioner and detangler: spray on dry or wet hair. Let conditioner saturate hair prior to brushing. To use as a finishing rinse: first shampoo hair with Enhance Clarifying Shampoo, Dazzle Shampoo or Sham-Pony Shampoo. Apply Enhance Detangling Crème Conditioner to clean, wet hair. For extra conditioning and healthier scalp, gently massage for an additional minute or two. Let stand four to five minutes, and lightly rinse. You may also apply to heavy tangled, matted hair prior to shampooing. Try Aloe Shampoo with Phenol for bacterial skin problems. Be sure to try Shiny Hiny Spray for a great finishing touch.

INGREDIENTS: De-ionized Water (no iron minerals), Stearalkonium Chloride (conditioner), Hexadecanol (conditioner), Ethoxylated Lanolin (conditioner), Glycerin (humectant), Sorbitol (conditioner), Dimethicone (conditioner), Jojoba Oil (moisturizer), Mineral Oil (humectant), Aloe Vera (healing agent), Vitamin A (moisturizer), Vitamin C (healing), Vitamin D (nutrients), Vitamin E (healing), Apple Extract (natural fragrance).
