**PRODUCT FACTS (continued):**

With 300mg of HA per ounce, Effortless HA has the highest concentration of HA available, 33% more than competing products. In a readily absorbed liquid, HA, a major element of both cartilage and synovial fluid, is associated with joint lubrication and flexibility. High molecular weight HA, the only kind AnimMed™ uses, is absorbed from the intestines and localizes in the joints. Effortless HA offers an effortless way for supporting your horse's normal joint health.

**DIRECTIONS FOR USE:** Provide 1 pump (approx 1oz) per 1200 lbs as a loading dose for up to 10 days, and then 1/2 pump (approx 1/2oz) per day for maintenance. The loading dose may be repeated prior to a competitive or stressful event.

**WARNINGS:** For animal use only. Keep out of the reach of children and other animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.
