

# HOW TO FIT YOUR HORSEWARE® BLANKET

The fit of your blanket is extremely important to ensure the comfort of your horse and to prevent rubbing and slippage of the blanket. As horses of the same height at the wither come in a variety of shapes and sizes, it is useful to take certain measurements of your horse. Horseware blankets are euro-cut and the sizes do not run the same as other manufacturers' blankets. Please see the sizing chart below for more details.

Measure from (A) at the center point of the chest, over the high point of the shoulder, to (B) at the rear of the hind leg. Rambo®, Rhino® and Amigo® blankets are sized in three inch increments. Amigo® Stock Horse is sized in two inch increments. If you measure between sizes, round down for Rambo® blankets and measure up for Rhino®, Amigo® and Amigo® Stock Horse blankets. When you have the measurement, choose the nearest from the size chart.

Bear in mind that every horse is different and that you may need to consider an XL blanket if your horse is of a particularly strong build or V-front closures if your horse has a very deep neck.

- Make sure that the tail is lifted over the fillet strap and that the strap is securely attached on both sides. This will prevent the blanket from blowing forward. Where possible pull the tail through the strapping on the inside of the tail flap.
- When closing the surcingles on a blanket secure the middle one 1<sup>st</sup> and then cross over the 2 outer surcingles. Make sure the surcingles hang at least 4 to 8 inches below the horse's belly.

## RUG SIZE CHART

Measurement from A to B			EU Back Seam Equivalent
CM	INCHES	FEET	CM
114	45	3'9"	75
122	48	4'0"	80
130	51	4'3"	85
137	54	4'6"	90
145	57	4'9"	95
152	60	5'0"	100
160	63	5'3"	110
168	66	5'6"	115
175	69	5'9"	125
183	72	6'0"	130
191	75	6'3"	140
198	78	6'6"	145
206	81	6'9"	155
213	84	7'0"	160
221	87	7'3"	165
229	90	7'6"	170
