

**MULTI DOSE
TUBE**

Selenium & Vitamin E

Indications:

Selenium and Vitamin E Oral Gel is a unique combination of Selenium and Vitamin E at levels designed for goats and sheep.

GEL

Both the Selenium and Vitamin E are ALL NATURAL. Selenium and Vitamin E Gel is in a Real Gel™ base that melts at body temperature so when administered it will not roll off the tongue. The Vitamin E level is 200 IU per 2mL (cc) dose. The maximum level of Selenium is at 3 ppm per animal. Each 2mL (cc) dose contains 1 ppm of Selenium. This product is to be used as the sole source of Selenium. A butterscotch flavor has been added for increased palatability.

Approved For Use On:

Sheep and Goats

Features:

- All Natural Selenium and Vitamin E
