

For use in horses, AniFlex GL's unique, natural formulation contains Glucosamine, HA and MSM which are easily absorbed to help maintain healthy connective tissue and joint function.

Glucosamine and Hyaluronic Acid

are easily absorbed, natural substances that may stimulate the production of proteoglycans. Proteoglycans help to maintain the health and resiliency of joints and connective tissues.

MSM

a bio-available source of sulfur for connective tissue support.

Antioxidants

combines antioxidants which help remove damaging free radicals.

Creatine and other ingredients

help to maintain healthy bone, connective tissue and joint structure and function.

ACTIVE INGREDIENTS PER OUNCE:

Glucosamine HCL (shellfish) 5000mg,
Hesperidin 3475mg, MSM 1775mg,
