

## MEASURING CHART FOR BOTH CRUSADER (PASTURE) AND QUIET RIDE (RIDING) FLY MASKS

Use these measurements as follows:

**STANDARD 1 - 2 - 4 - 5 - 6**

**LONG 3 - 4 - 5 - 6**

- #1-Between ears (poll) down to mid face
- #2-Bottom outside of ear down to mid face
- #3-Between ears (poll) down center of face to mid nostril
- #4-Around entire face at mid jowl
- #5-Around neck 2" behind the ears down the mid jowl line to same point on other side
- #6-Across brow, side to side, starting 2" behind and below the ears across to same point on other side of brow

SIZE in inches	#1	#2	#3	#4	#5	#6	EARS
<i>Foal/Mini</i>	10	9	15	18	27	14	5 ½
<i>Weanling/SM Pony</i>	11	10	18	22	34	15	7
<i>Yearling/LG Pony</i>	13	11	22	24	35	22	8
<i>Arab/Cob</i>	13.5	12	23	26	35	23	8
<i>Horse</i>	14	13	24.5	26	41	23	8
<i>Warmblood</i>	18	14	26	28	42	25	9
<i>Draft</i>	19	15	29	34	50	28	9.5

*Measurements #5 and #6 have a variance of 4" because of an adjustable Velcro closure. Cashel also carries a Velcro Strap Extender (VSE) for masks that fit everywhere but needs more room in the jaw area.*

*All fly masks for mules/donkeys have 13" long ears.*

*Please ensure fly mask does not touch the eye area.*
