AniGest is a unique nutritional digestive supplement scientifically prepared with acid stable enzymes and probiotics. The enzymes in AniGest include: Amylase, to aid in the digestion of starches and sugars; Protease, to aid in the digestion of proteins to amino acids; Lipase, to aid in the digestion of fat and Cellulase, to aid in the digestion of fiber. The live yeast (probiotics) in AniGest includes: S. Cerevisiae strain 1026 and Lactobacillus Acidophilus. **INDICATIONS:** Nutritional digestive support to help your horse achieve and maintain optimal condition and peak performance. AniGest may benefit horses in times of reduced digestive activity caused by stress, antibiotic treatment or bacterial infections. **DIRECTIONS FOR USE:** Intensive training or performance or during breeding, gestation and lactation feed 3 ounces daily. Mature horses or idle to moderate activity feed 1 1/2 ounces daily. Weanlings and Yearlings start at 3/4 ounce daily and gradually increase according to body weight. Increase feeding of large breeds proportionately according to body weight in excess of 1000lbs. The enclosed scoop measures 1 1/2 ounce.
