*Bactericidal • Fungicidal*

- Kills & prevents bacteria and fungus that cause Thrush and White Line disease
- Does not sting or irritate
- Will not dry out hoof • Non-staining

12 fl. oz. (355 mL)

**ABSORBINE®**

*The Horse World's Most Trusted Name®*

Thrush and White Line disease are bacterial hoof infections often complicated by fungi. Untreated, they can lead to lameness.

Symptoms of Thrush include a thick, black discharge around the frog, accompanied by a foul odor.

White Line disease is an infection that begins at the white line and extends upward. Cavities form in the hoof and emit a foul odor.

HOOFLEX® THRUSH REMEDY kills imbedded bacteria and fungi, helps eliminate associated odors and promotes normal healing.

**DIRECTIONS FOR BEST USE:**

1. Clean the hoof thoroughly. Remove as much diseased tissue as possible. If necessary, seek the help of a farrier or veterinarian.
2. Saturate the infected area with Hooflex Thrush Remedy twice daily for 3 days, then once daily until the hoof grows out.

For proper hoof maintenance, continue to apply once weekly to help prevent infections.

**CAUTION:** Keep out of reach of children. For external use on livestock only. If condition persists longer than 2 weeks, call your veterinarian. Avoid contact with eyes. In case of contact, immediately flush eyes with plenty of water.

**ACTIVE INGREDIENTS:**

Chloroxylenol 5.0%; Aluminum Chlorhydroxy Allantoinate 0.25%.
