Keep tightly sealed and store in a dry place out of direct sunlight.

Contains a source of live (viable) naturally occurring microorganisms.

AniMed's Weight-UP is more than just a supplemental source of calories and fat needed to increase weight for horses of all classes. The unique formulation of Weight-UP provides support for a horse's digestive system. The overall integrity of a horse's digestive system affects its ability to gain and maintain optimal weight. The live yeast culture Yea-Sacc<sup>®</sup> 1026 (*Saccharomyces cerevisiae*) and the Lacto-Mos<sup>™</sup> (lactic acid bacteria) supply your animal with a source of live, naturally occurring microorganisms which support normal digestive function. Weight-UP promotes caloric intake for weight gain and maintenance. Benefits may also include the promotion of healthy digestion, skin, and coat.

**FEEDING DIRECTIONS:** Weight-UP may be provided at a rate of 3 to 4 1/2 ounces per day. The enclosed scoop measures approximately 1 1/2 ounces. The amount and frequency may be varied depending on the horse's activity level.

FOR ANIMAL USE ONLY.

KEEP OUT OF THE REACH OF CHILDREN.
